

KLOVE serves me and other residents of the Tuttle/OKC community by giving us an alternative to the secular music on the radio today. There are no curse words, no sexual innuendos, etc. Just positive, encouraging, christian music. If we were forced to lose KLOVE, it would be detrimental to our community and upcoming youth as it provides alot of our christian students with a positive role model in a world filled with negative models. Our community values KLOVE and the music and ministry it provides to others across the nation. Without it, our nation will decline even faster. With it, I believe it gives our nation a more encouraging chance to overcome the bad in this world that we are faced with everyday.
